

Anthem Pets is a 501C-3 non-profit rescue organization dedicated to reuniting lost pets with their owners and rescuing homeless and abandoned dogs and cats.

By working with committed volunteers, foster homes, local veterinarians, trainers, and boarding facilities, we are able to assist hundreds of animals every year, provide them with loving temporary care, give them necessary vaccinations and wellness checks, and find them well-matched, carefully screened forever homes.

We also serve as a resource to our community by providing low cost shot clinics, education and information on responsible pet ownership, including the importance of spay/neuter, micro chipping, positive behavior training, and good nutrition. We also donate re-bagged pet food to residents in need.

Please Microchip Your Pets

One in three family pets will get lost during its lifetime. Without proper identification, many will never return home and will unfortunately run the risk of being euthanized.

The microchip offers permanent protection and could make the difference in whether or not you are reunited with your pet.

As a second line of defense, make sure your pet wears a collar with up-to-date contact information on the identification tags.

Don't let your pet become a statistic!
